A: For Entity you can create a private Google Cloud Function using Firebase Admin SDK and use Firebase Hosting for hosting your App. Take a look: The Cloud Functions for Firebase Hosting Developer Guide Check out my Github It's similar to the Firebase Hosting Firebase Admin SDK for Android application: Once you get familiar with the SDK, you can use Firebase Admin SDK with your own Android application. The present invention relates generally to a method and system for conducting storage and retrieval of data on a computer. The invention relates particularly to a method and system for conducting storage and retrieval of data on a computer, wherein the data are stored and retrieved as separate data files. Data are currently generally stored and retrieved by first locating and storing the data on a computer. Thereafter, the data are searched for, retrieved, and combined or manipulated as a series of separate files. In one example, mail data, such as, for example, messages, subject lines, headers, and other information, are stored on one or more disk drives of a computer. The individual data, and other data are separately retrieved and then compiled to produce a final file. In one aspect, the present invention contemplates a method for storing data. The method includes the steps of storing data as files in one or more locations, and retrieving the data. The method further includes the step of copying the files, as desired, for use in a plurality of locations. In another aspect, the invention contemplates a method for retrieving data. The method includes the steps of retrieving selected files from one or more locations, and combining the selected files into one or more groups. In still another aspect, the invention contemplates a system for storing and retrieving data. The system includes one or more locations for storing data, and includes a memory for storing files to be retrieved. The system further includes one or more means for retrieving the files from one or more locations, and one or more means for combining the files into one or more groups. Ask HN: How do you or have you structured customer support emails? - khadil I think email is the most common way customers get support nowadays. And knowing the technology stack involved in our product we are dependent on our customers using our webapp in order to understand their emails. If they are unable to, then we have to hire people to understand the stack and help them. I am wondering how people overcome this issue&# 3e33713323
