Crusader Kings II: Saxon Unit Pack is an expansion pack for the game Crusader Kings II. Gameplay: This Content is intended for use with a save game from Crusader Kings II. Please play Crusader Kings II to the end before installing this Content. Before installing, ensure that you have a save game from Crusader Kings II of at least English Language version 1.3.0 before installing the Saxon Unit Pack. The Saxon Unit Pack includes seven new units and one new leader. Import the save game of Crusader Kings II using the instructions found here: (UK English) / (US English) Crusader Kings II is a strategy game in which you become a medieval ruler managing the expansion and survival of your realm, deciding on how best to expand and rule, and negotiating with neighbors to keep the peace. A complex and deep strategy game, it requires you to think carefully about the long-term consequences of your actions. You will build a country that will be yours to rule for hundreds of years, shaping its history and its people, and filling its coffers with gold. You will work closely with your nobles, advisers, and ministers in an effort to be crowned Holy Roman Emperor. You can expand your influence over the other rulers in Europe and bring the world under your rule. Crusader Kings II is a game of three phases. The first phase is character generation, which focuses on giving your ruler a variety of stats and skills to determine their personality. The second phase is about making decisions that will affect your realm. As ruler you will face decisions on everything from how to spend your time, who to marry, and how to expand and rule over your people. The third phase is where the work of the game really begins - managing your realm from a distance. As time progresses you will grow older and will decide how to spend your retirement. Will you remain at

court, seclude yourself in a monastery, or become a hermit? Whatever you decide, others will likely have their own ideas on how you should spend your days. Features: - Randomised random map generator gives each game its own feel. - Over 500 years to play for! Build a realm from 1066 to 1536. - Traits and other special abilities for you and your subjects. - Culturally distinct religions and cultures. - Unique unit models and traits for the c9d1549cdd

To develop an alternative to existing obstacle courses to increase challenge and interest for individuals with spina bifida or other disabilities needing non-endangering training. A dual gravity course was designed where the participant was raised above ground level but was still able to traverse flexible obstacles. The obstacles were selected to reflect their use in recreational and workplace environments. Trials using the course were conducted with four individuals with spina bifida or other mobility impairments. The trials were observed and audio and video recording was conducted to produce data for analysis of the obstacles, the course configuration and participant responses. Participants completed the course, but some reported that the standard length was not challenging enough for them. A longer course was used instead, and this was well received by all participants. This type of course requires additional research and personnel before it can be available to wheelchair users.How did half-sisters Mahishasur and Siddharth affect each other? What were the important issues in their lives? There have been attempts to write several books on this period of history but they were not very satisfactory in many ways. Amar Ahuja has made a recent attempt to achieve this task but he has packed too much of story into this
